

SCENT HOUND

"SIREN HUNTER"

American Foxhound - Basset Hound - Beagle - Black and Tan Coonhound - Bloodhound - Blue Tick Coonhound - English Foxhound - Harrier - Otterhound - Petit Basset Griffon Vendeen - Plott Hound - Redboone Coonhound - Red Tick Coonhound - Treeing Walker Coonhound - mixes of any of the above breeds

You'll fall in love with your scent hound because she's:

Social - She's generally very outgoing and friendly with people and other dogs.

Emotional - She wears her passionate heart on her sleeve about everything, from you to squirrels.

Fun - She can be hilarious, playful, social, creative, and adventurous.

You might find a scent hound hard to live with because she's:

Impulsive - A naturally ambitious dog, she can tune out the entire world and everyone in it when she's on her game.

A Hunter - Her blind (and deaf) determination for sniffing out, tracking, and pursuing targets can be annoying and even quite dangerous to other animals.

Dramatic - She's born to bay her little heart out when life gets exciting. You may feel like you're watching a pop talent reality show at times.

You might find yourself seeking professional help for:

- Excessive barking
- Predatory behavior toward other animals
- Failure to come when called
- Unmanageability on leash when stimulated by other animals
- Emotional "act first, think later" reactions to threats to space, safety, or other resources
- Difficulty with confinement to smaller spaces/indoor living

So you think you might have a SCENT HOUND.
